***Allowable Subject Matter***

1. As per claims 1, 3-7, 12, 16-17, 19 and 21, and 24-26.

The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches or suggests a method of transmitting content, comprising the steps of: opening a socket to a manager, the opening being performed by a first web server agent, running on a first computer in a web service system if the first web server agent is not able to open a socket to a second web server agent running on a second computer in the web service system, sending a message from the first web server agent to the second web server agent via the managers, the message requesting that the second web server agent open a socket to the first web server agent, using the socket opened by the second web server agent to send a further message from the first web server agent to the second web server agent.

2. As per claims 8,13-15 and 22-23.

This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104(e). In this case, the substance of applicant's remarks filed on 01/27/2004 point out the reason the claims are patentable over the prior art of record. Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 13202.14).

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Examiner's Amendment**

4. An examiner's amendment to the record appears below. Should changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312.

To ensure consideration of such amendment, it must be submitted no later than the payment of the issue.

5. Authorization for the examiner's amendment was given in a telephone interview with Mr. Steven E. Koffs on 01/14/2005.

6. The application has been amended as follows.
